Office Memorandum • UNITED STATES GOVERNMENT

TO : Chief, Industrial Division, ORR

DATE: 4 November 1958

FROM : Chief, Manufacturing Sectors Branch, D/I

SUBJECT: Monthly Report for September 1958.

1. Status of Branch Projects:

25X1A9a

30.1535 -- Investment in Light Industry in Communist China - [REDACTED] has completed a revised draft of the section dealing with cotton. This is a major section of the report and contained most of the problems. I have not read it.

30.2043 -- Capital Investment in the Producer's Equipment Industry of Communist China - Another draft of this project is now being typed and should be ready for submission to the Division this month. An excellent report on China's dependence on machinery imports is now available which satisfies one of the previous gaps in the report. 25X1A9a

32.488 -- Industrial Investment Policy in East Germany - [REDACTED] intends to wind up his report this month or early in December.

34.894 -- The Determination of Cost and Price in Soviet Machine Building - I have reviewed a virtually complete draft of this report and have returned it with comments to [REDACTED]. The report needs an additional appendix or two of supporting material, some cutting and reworking. It should be well received. 25X1A9a

25X1A9a

34.1928 -- European Satellite Trade in Machinery and Transport Equipment, 1950-1957 - S/T has reviewed the report and returned several pages of comments none of which appear to be very controversial. I intend to make appropriate changes and submit the report for publication. [REDACTED] has also reviewed this report paying special attention to the sections on Poland and East Germany. He made several fairly major changes and numerous minor ones which substantially improves the report.

34.1930 -- Problems in Soviet Machine Building - A completed draft of this report is now ready for my review.

2. Status of Support Projects: 25X1A9a

30.1830 -- NIS 13A, East Germany -- [REDACTED] is having considerable trouble with some of the military contributions. I believe the Division office is aware of these problems.

30.1826 -- NIS 26 - USSR - Section 64 - [REDACTED] is giving guidance to analysts in both ERA and the military components. No great problems at this time.

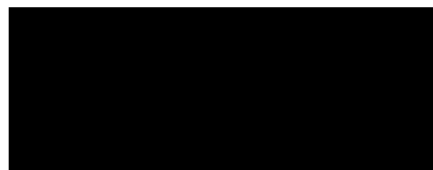

25X1A9a

10.1803 -- Communist China through 1963 - [REDACTED] has met with D/A and has come to an understanding as to the extent of the Division contribution to D/A. More on this next month.

3. Changes in Estimates: no comment.
4. Relationships with Other Components - The usual NIS contacts with the Services remain a problem.
5. Future Plans: no comment.
6. Other Problems: no comment.
